70200 Kuopio, Finland

Dear Madam, Sir,

Hello, I am a student of Savonia University of Applied Sciences, my field of studying is an Information Technologies.

My bachelor degree program include summer internships and now I am looking for a place for this summer.

I am interested in GUI development (Java swing GUI and Android Dev. on Java). Also I have had an experience in SQL databases (Postgres SQL and Microsoft SQL Server), digital signal processing, artificial intelligent for game development, control engineering and I also has a lot of information about sensors and telecommunication in my curriculum.

I took part in an exchange program Erasmus+ and next part of the studying year I am going to spend in Institute of Technology in Tralee, Ireland. I will learn Project Management, System Architecture, Game Mechanics(Game Development with Unity3D and C#) and Big Data. I also will have an opportunity to improve my English in the surrounding of native speakers.

My hobby is photography(my photos vk.com/airphotos) and raster / vector graphics.

I would be happy if you have any available opportunity for me to have the internship.

Best regards, Tukalo Alexey,
EFA12SF, Savonia UAS,
Thanks.
